

City of Coronado
Glorietta Bay Marina Management Request for Proposals

ADDENDUM NO.3:

This third Addendum to the Glorietta Bay Marina Management Request for Proposals (RFP) adds the following section:

Maintenance

Glorietta Bay Boat Launching Dock

Respondent shall provide a separate maintenance and cost of service plan for the City's Glorietta Bay Boat Launching Dock located at 1975 Strand Way, Coronado, CA 92118. The Glorietta Bay Boat Launching Dock provides space for temporary public tie-ups of motorized and sail boats and has an ADA compliant low freeboard dock for launching non-motorized craft. The optional plan shall provide information on the respondent's approach to the regular inspection, deck and railing cleaning, repair, and maintenance of the Boat Launching Dock. The associated costs of maintaining the Boat Launching Dock will be expensed through the Marina Operating Account. This service should be provided as an independent and separate pricing proposal from the Marina Management proposal as it will be the City's option on whether to contract for this service from the selected vendor.

Note: In regards to the maintenance services requested above, the Glorietta Boat Launching Dock only includes the gangway and dock. It does not include the concrete boat launching ramp, the sandy beach, rocks, boat launch parking lot, or boat wash off area.

All other terms of the RFP remain the same.
